General Compliance

Orbia B&I (Wavin) is committed to supplying products that are compliant with applicable laws, rules, and obligations imposed by relevant governmental bodies.

Legal Requirements

Regulation 1907/2006 concerning the Registration, Evaluation, Authorisation & Restriction of Chemicals

In accordance with Article 33(1) of this regulation, suppliers of articles¹ are required to inform recipients if any article contains a substance listed on the Candidate List of Substances of Very High Concern (SVHC) in a concentration above 0.1% weight by weight (wt.%). At a minimum, the name of that SVHC on the Candidate List must be communicated.

Please note that the European Chemicals Agency (ECHA) updates the Candidate List regularly. As of the latest update on November 5th, 2025, the Candidate List includes 251 SVHCs. We continuously monitor these updates and conduct ongoing screening of our products in collaboration with our suppliers.

In accordance with Article 33(1) of REACH, we hereby inform you that **Heating products that incorporate brass components contains the SVHC lead (Pb, CAS-# 7439-92-1)** from the current Candidate List in concentrations above 0.1 wt.% (w/w). Safe usage information: The lead present in these copper alloys is chemically bound within the metallic matrix without migration or leakage under normal operating conditions.

Furthermore, in compliance with Article 67 and the associated Annex XVII of the REACH regulation, our products do not contain any restricted substances in violation of the conditions specified therein. Annex XVII outlines restrictions on the manufacture, placing on the market, and use of certain hazardous substances, mixtures, and articles.

¹ Definition of "article" acc. to the REACH regulation 1907/2006/EC §3(3): *Article means an object which during production is given a special shape, surface or design which determines its function to a greater degree than does its chemical composition.*

Persistent Organic Pollutants

Orbia B&I (Wavin) products have been screened and determined to comply with “EU Regulation 2019/1021 on persistent organic pollutants (recast)” and its enforced amendments. [Understanding POPs - ECHA \(europa.eu\)](https://ec.europa.eu/understanding-pop); [Legislation - ECHA \(europa.eu\)](https://ec.europa.eu/legislation)

Ozone Depleting Substances

Orbia B&I (Wavin) products have been screened and determined to comply with

- EU Regulation 1005/2009/EC on substances that deplete the ozone layer and its enforced amendments
https://ec.europa.eu/clima/policies/ozone/regulation_en
- EU Regulation 517/2014 of the European Parliament and of the Council of 16 April 2014 on fluorinated greenhouse gases and repealing Regulation (EC) No 842/2006 Text with EEA relevance
https://ec.europa.eu/clima/policies/f-gas/legislation_en

Disclaimer

This statement is intended to summarize relevant information in accordance with applicable legal and industry-specific requirements concerning hazardous substances in our products. It does not replace any evaluation, due diligence, or testing that may be required to determine compliance for your specific application. Orbia Building & Infrastructure (Wavin) provides this information without a warranty of results and assumes no liability arising from its use. Some of the referenced information may not be applicable to your particular use of the product.

References to regulations or industry-specific requirements are provided for informational purposes only and do not constitute application or performance recommendations. This statement reflects our current knowledge as derived from our Hazardous Substances Compliance Management processes. It covers intentionally added substances and anticipated impurities in materials supplied to us or manufactured in-house.

By-products of chemical reactions, fraudulently introduced, or non-intentionally added substances (NIAS) are not within the scope of this statement. The validity of this statement is limited to products shipped from our facilities and based on the most recent data available at the time of issuance.
