- **Optiflow – designed for increased flow rate with up to 50% larger inner bore**
- **Flexible, multi-layer pipe requires minimal fittings reducing installation time and cost and improving flow rates**
- **Multi jaw – can be used with most available jaws meaning no new tools needed**
- **In4Sure technology ensuring full pipe insertion**
- **Guaranteed for 25 years and WRAS approved**
- **Defined leak function to reveal unpressed fittings when air testing not possible**

The range uses the same Tigris pipe and is fully compatible with the Tigris K1 system.

All tools in the range can be used with either system.
