

Wavin, an Orbia business, building healthy, sustainable environments

2026 edition

Sustainable solutions

Safe and efficient water supply
We improve the distribution of clean drinking water from source to tap.

Better sanitation and hygiene
We future-proof wastewater transport and make sanitation accessible to everyone.

Climate resilience cities
We use climate resilience solutions to build liveable and loveable cities.

Better building performance
We design, build and use comfortable living environments in the most efficient way.

EPDs as backbone of transparency
Wavin provides product-specific, third-party verified EPDs for all European in-house products and a selected Latin American portfolio. We are piloting Digital Product Passports to enable lifecycle transparency.

Circular economy

Accelerating the circular economy through low-carbon, circular and biobased solutions - supported by Take-Back collection & recycling services.

Goal:
Global usage of circular material 50 kton in 2030 as part of our Scope 3 CO₂ emission reduction program.

Status 2025:
[Progress bar: 4/5 green squares]

Goal:
Further growing the recyclability of our products to 90% by 2025.

Status 2025:
[Progress bar: 4/5 green squares]

Our Take-Back Services are scaling across Europe and Latin America, enabling the return and recycling of plastics and supporting circular material flows.

Environmental impact

Reduce the environmental footprint of our operations.

Goal:
Reduce Scope 1 & 2 emissions with 47% by 2030 (versus 2019) and reach carbon net zero by 2050.

Status 2025:
[Progress bar: 4/5 green squares]

Goal:
Achieve Zero Waste To Landfill (ZWTL) by 2025.

Status 2025:
[Progress bar: 4/5 green squares]

In our EMEA operations we operate on 100% renewable electricity, and on a global scale we've achieved 76% renewable energy usage.

Social inclusion

Help improve human societies around the world.

Goal:
Create a positive impact on local communities, through:
• WASH (water, sanitation, and hygiene) projects
• Local community projects and (product) donations
• Volunteering & building skills

Status 2025:
• WASH projects: **21**
• Community projects: **12**
• Volunteering: more than **2000** colleagues volunteered in **78** activities globally.

In 2025, approx. **38,000** people benefited from our social inclusion projects.

Every Wavin colleague worldwide can dedicate up to 10 working hours annually to volunteer projects.
