Pre-wall Systems

An Orbia business.

# Wavin LaLinea

## Pre-Wall Systems

The new Wavin LaLinea pre-wall system sets a new benchmark for modern, sustainable, and high-performing building solutions.

Leveraging 70 years of Wavin's engineering experience, Wavin LaLinea combines intelligent design with seamless functionality, delivering a comprehensive, all-in-one solution for building systems.

Fully compatible with Wavin's wastewater and drinking water solutions, Wavin LaLinea ensures a smooth integration of performance, comfort, and aesthetics. Its low-noise operation, BIM-ready digital tools, and fast, straightforward installation make it the preferred choice for installers, designers, and developers seeking efficiency and reliability at every stage. Supported by Wavin's global innovation network and local expertise, the system is built to meet the highest standards of durability and performance, providing long-lasting results and peace of mind for both professionals and end users.

The LaLinea pre-wall system seamlessly integrates with **Wavin AS+** and **Wavin SiTech+** for low-noise building drainage, and with **Wavin Tigris** for drinking water systems, providing a full bathroom solution.

## Pre-installed WC modules

Skilled worker shortages are increasingly causing delays in new construction and renovation projects. Architects and planners feel the impact first, and installers on site feel it most. That is why saving time in planning and installation and completing sanitary installations with fewer specialists is more important than ever.

Wavin`s pre-installed **easy and premium** WC modules make this possible, allowing you to plan efficiently, work flawlessly, and finish projects faster than ever.

### Wavin LaLinea WC Module Premium

1. Flexible Wall Bracket

  - Pre-installed multifunctional, foldable wall bracket for versatile mounting on a straight wall, in a corner, or on a projection.
  - Depth adjustment can be easily done from the front.
  - Easily hooks into C-profiles 27×18 mm with a 15 mm profile opening.
2. Acoustic Set

Decouples the feet and wall brackets. Helps comply with DIN 4109 by reducing structure-borne noise transmission.
3. Robust Frame

  - Self-supporting powder-coated installation frame.
  - Suitable for wall-hung installation on solid or lightweight walls.
4. Large Water Reservoir

Sturdy tank for long-lasting use.
5. Tool-Free Maintenance

The large flush plate opening allows for quick, tool-free maintenance and easy access to all components.

### Key Advantages

How architects, planners, and installers benefit from the Wavin WC module:

- Less material and time required compared to conventional planning and installation
- Easier work thanks to pre-installed WC modules
- Reduced personnel and skilled labor requirements due to pre-installed components
- 10-year manufacturer's warranty
- 25 years of guaranteed spare parts availability
- Compliance with the enhanced requirements of DIN 4109-5

6. Precise Alignment

The meter scale helps position the module easily. The center marking on the frame additionally supports precise alignment during installation.
7. Reliable Condensation Insulation

Effective insulation prevents condensation and reliably protects components from moisture exposure.
8. Stable Ceramic Fixing

Bolts with a 180 mm pitch and high-quality M12 press-in nuts are used for secure toilet installation, ensuring lasting stability and easy assembly.
9. Water Connection for Smart Toilet

A conduit runs from the water tank to the right side of the frame, allowing for the future installation of water lines for a smart toilet with cleaning functionality.
10. Precise Pipe Bend Holder

Sturdy bracket for secure fixation of the pipe bend. Allows precise positioning in three steps and facilitates professional installation.
11. Comfortable Self-Locking

The integrated self-locking mechanism automatically secures the frame during installation. It enables easy single-person assembly and ensures precise alignment and fixation using the meter scale.
12. Secure Mounting Feet

The feet are compatible with UW profiles and can be quickly attached, ensuring easy and secure frame installation.
13. Flexible Height Adjustment

The feet extend up to 200 mm, allowing flexible and precise height adjustment for different floor levels.

## Product Overview

Elements - From Basic to Premium- One Range, All Options

LaLinea WC Base

LaLinea WC Easy

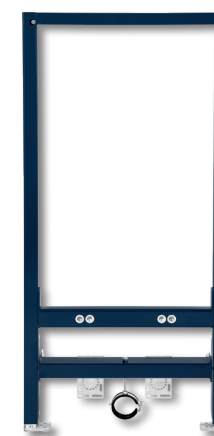

LaLinea WC Premium

LaLinea WC Light

LaLinea Wash Basin

LaLinea Bidet

LaLinea WC Nordic P/P

LaLinea WC 450 mm

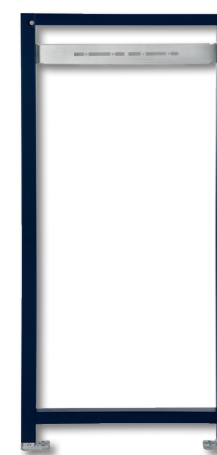

LaLinea WC Barrier free

LaLinea Urinal

LaLinea Sink

LaLinea Shower / Bath

### Easy Installation & Reliability

- ⌚ Pre-assembled components reduces on-site labor
- ⌚ Robust steel frames ensure durability
- ⌚ Smart design simplifies setup
- ⌚ Long-term reliability included
- ⌚ Consistent quality proven in the market
- ⌚ Engineered to perform

### Complete System Integration

- ⌚ Complete end-to-end solution
- ⌚ Including Low Noise and Hygiene
- ⌚ One partner, one system
- ⌚ Simplifies procurement, installation, and support
- ⌚ Reduces risk of mismatched parts and ensures long-term reliability

### Design Freedom & Comfort

- ⌚ Available in 450 mm, barrier-free, and lightweight versions for diverse layouts
- ⌚ Modern design with contemporary aesthetics
- ⌚ Low-noise flushing: Enhances comfort
- ⌚ Premium components: Ensure performance and a high-end finish
- ⌚ Designed to deliver both functional ease and visual appeal

### Trust & Service

- ⌚ Technical expertise ensures trusted engineering and product performance
- ⌚ BIM libraries simplify planning and integration for specifiers
- ⌚ Dedicated customer service supports every stage of the project from design to installation
- ⌚ Reliable systems are backed by expert guidance

## Actuator Plates

### Design Variety & Aesthetic Choice

Our actuator plate portfolio features modern designs in a wide range of colours and finishes that seamlessly fit any bathroom style.

### Easy Operation & User Comfort

Designed for ease of use and user comfort, our actuator plates offer intuitive dual-flush and touch-free electronic options with automatic flushing. Automatic flushing reduces contact, supports better hygiene, water efficiency, and long-lasting performance.

### Premium Materials & Durability

Made from high-grade materials with a scratch-resistant finish, our actuator plates are built for durability and hygiene. Smooth, easy-to-clean surfaces help prevent dirt and bacteria buildup while preserving their visual appeal over time.

### Seamless Compatibility & Complete Solution

Every actuator plate is fully compatible with the Wavin LaLinea pre-wall concealed cistern system, offering a complete and reliable solution from one trusted partner.

### Customer Value

With a variety of designs, finishes, and functionality, Wavin actuator plates not only operate the system but also elevate the overall bathroom experience.

# Why choose Wavin?

A complete, reliable solution from one trusted partner

## Everything from a single source

Wavin LaLinea offers a one-stop-shop approach with a comprehensive range of solutions, including wastewater, drinking water, pre-wall systems, and indoor climate solutions.

## Powerful low-noise performance

In combination with Wavin AS+ and Wavin SiTech+, Wavin LaLinea delivers an excellent low-noise solution, tested according to DIN 4109 and NEN 5077, meeting the stringent requirements of <25 dB(A).

## Seamless integration with drinking water solutions

Wavin LaLinea incorporates Wavin Tigris drinking water solutions, enabling quick, reliable, and tested installation.

An Orbia business.

## Added value from Wavin

With over 70 years of expertise in plumbing and water management, Wavin delivers more than products. We create long-term value through integrated systems, deep technical know-how, expert support, and proven reliability.

- One-stop-shop solutions for faster and more efficient project delivery
- Complete BIM packages to support accurate planning and coordination
- Easy-to-install, certified systems that reduce installation time and help ensure compliance
- Reliable logistics, clear documentation, and expert support to minimise risk and avoid rework
- End-to-end support, from design to realisation
- 10-year system warranty for long-term confidence
- 25-year spare parts availability, ensuring future-proof installations

- Drinking water distribution
- Waste water drainage
- Indoor climate solutions
- Urban climate resilience solutions

**Building &  
Infrastructure**

Wavin is part of Orbia, a community of companies working together to tackle some of the world's most complex challenges. We are bound by a common purpose: To Advance Life Around the World.

Orbia's Building and Infrastructure business Wavin is an innovative solutions provider for the global building and infrastructure industry. Backed by more than 60 years of product development experience, Wavin is advancing life around the world by building healthy, sustainable environments for global citizens. Whether it's to improve the distribution of clean drinking water, to make sanitation accessible for everyone, to create climate resilient cities, or to design comfortable living spaces, Wavin collaborates with municipal leaders, engineers, contractors, and installers to help future-proof communities, buildings and homes. Wavin has 12,000+ employees around 65 production sites worldwide, serving over 80 countries through a global sales and distribution network.
