

NEW Tegra 600 Inspection Chamber

Designed to be flexible,
built to last.

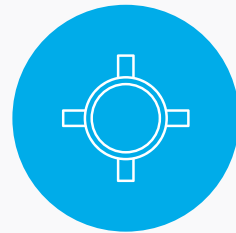

BUILT INTO
IRELAND
Since 1958

wavin

An Orbia business.

Why choose Wavin Tegra 600?

Expanded Range

- 6 flow profiles / 26 base variants for maximum installation flexibility including new 180° base option with 110mm sockets
- Connections to 110, 160, 200, 250 and 315mm Wavin Sewer pipe
- 1m & 6m shaft lengths plus adaptors, covers & concrete biscuit

Built to Last

- Double reinforced base plate for improved stability and longevity
- Integrated benching with a 15° gradient to prevent debris build-up and reduce nesting risk
- Swept channels for enhanced flow performance
- Designed to deliver a lifespan of up to 100 years

Easy to Install

- Base pipe sockets allow 10° movement in all directions for easy on-site installation
- Chamfered push-fit base shaft socket for fast and reliable installation
- Shaft can be cut to required length
- Re-designed symmetrical shaft seal can be installed either way up for ease of use

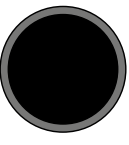

Sustainability

- Bases manufactured with up to 76% recycled material for lower carbon footprint

Fully certified and compliant with Irish Water regulations
